

## Confirmation of partnership

Salzwedel, 01.11.2009

Dear Customer,

due to the regulations of Gummiwerk Kraiburg Relastec GmbH, we will confirm, that the company

Firma Karl Lindner GmbH + Co. KG  
Lauterbacher Strasse 27  
36110 Schlitz-Willofs  
Germany

is dedicated as partner for installing impact protection surfaces like EUROFLEX® products in accordance to DIN EN 1177:2008 and ASTM-F 1292-04.

Due to the high quality standards of Kraiburg Relastec GmbH, our Partners are special companies, fulfilling the criteria's of knowledge, expertise and experience in selling our products for playgrounds.

EUROFLEX® shock-absorbent surfacing systems provide impact protection at fall heights up to 3 m (certified in accordance with EN 1177:2008, offering maximum safety and quality along with protection from injuries - for the benefit of our children. Their excellent resistance to weathering and ageing ensure long service life and minimum maintenance costs. EUROFLEX® products provide optimum protection against injuries on playgrounds and in other facilities - including nursing homes, rehabilitation centres, schools, day-care centres, sports facilities and recreational parks - on sidewalks, patios, stairways and spectator standing and seating areas. EUROFLEX® products also feature easy and problem-free installation and are available in a highly diverse product range fulfilling the most exacting safety, colour and dimensional requirements.

Product Service

DIN EN1 176-1:200E8N; 1 176-1:2008
